

# **2012 Space Weather Enterprise Forum**

## **Closing Remarks**

**Samuel P. Williamson**

**Federal Coordinator for  
Meteorology and Chairman,  
National Space Weather  
Program Council**

# Strengthening the Enterprise

## Objectives

- **Share information** across the enterprise and **raise awareness** for new users, decision-makers, and policymakers
- Identify effective approaches to **raise awareness** in the broader society
- Identify effective approaches to **build resilience** across society, particularly in **critical infrastructure protection and support**
- **Improve communications** within and external to the enterprise
- **Collect information** to support a new National Space Weather Program Implementation Plan

# Next Steps

---

- **Prepare brief summary report**
- **Analyze results to apply to the National Space Weather Program**
- **Act on the Unified National Space Weather Capability strategy**
- **Incorporate forum take-aways into the new NSWP Science and Implementation Plans**

# Post-Forum Information

---

- **Forum materials will be available online**
  - **Abstracts and biographies book (updated)**
  - **Final agenda**
  - **Summary report**
  - **Presentations**
